PRESENTATIONS*

STICK

20 ml stick containing 10% diethyltoluamide (DEET, denatured alcohol, eucalyptol, camphor, citronella, propylene glycol, glycerin, sodium stearate).

ROLL-ON

60 ml roller containing 20% of diethyltoluamide (DEET, ethyl alcohol, eucalyptol, camphor, carbomer, essential oil of citronella, distilled water).

SPRAY

50 ml bottle containing 50% of diethyltoluamide (DEET, denatured alcohol, isopropyl myristate, eucalyptol, camphor, citronella).

INDICATION

PICO® is an insect repellent against mosquitoes, other insects and mites. It is used for the prophylaxis of diseases transmitted by insect vectors: malaria as well as arboviruses.

PRECAUTIONS FOR USE

PICO SPRAY > 6 years

Avoid contact with eyes and mucous membranes. In case of contact, immediately rinse with water. Avoid using this product for extended periods. PICO® is highly flammable, avoid smoking when applying.

POSODOGY AND METHOD OF ADMINISTRATION

Carefully apply a thin layer uniformly on the exposed skin. Reapply every 6 to 8 hours.
